THE VSC FOUNDER?!

PERSONAL STATEMENT:

I, Amelia, hereby form the VSC organization for the purpose of [illegible] denaturalization; that is the process by which matter is being corrupted to inherit properties that break the laws of physics of our universe. If we do nothing, this denaturalization process will spread throughout time and space until there is nothing left of humanity.

[illegible]

VSC does not seek reward or recognition for our work. Success is measured by how many people are able to lead full lives without ever having to encounter denatured entities or the VSC. Denatured objects and individuals who we identify as having the potential to spread denatured properties to the rest of reality will be discreetly removed from
